Professional Summary

Results-driven Full-stack JavaScript Developer with proven experience building React.js applications and fintech solutions at Aventisia. Expert in modern frontend state management (Zustand), data fetching (TanStack Query), validation (Zod), and UI frameworks (ShadCN). Delivered 3 high-impact MERN stack applications (WeChat AI platform, Foodii kitchen platform, Zobs job portal) with 90+ performance scores. Committed to clean, scalable code architecture and creating responsive, accessible user experiences that drive business growth.

Skills

Frontend Tools: React.js 18, HTML5, CSS3, Tailwind CSS 3.0, Zustand, TanStack Query, Zod, ShadCN UI

Backend & Database: Node.js 16+, Express.js 4.x, MongoDB, REST API, JWT, Bcrypt

Tools & Practice: Git, GitHub, Jest, Agile/Scrum, CI/CD (Vercel), Responsive Design, Webpack

Language & Concepts: JavaScript (ES6+), TypeScript, Java, OOP, MVC, DBMS, NPM

Work Experience

Aventisia

Jr. developer

Hybrid

Nov 2024 - Present

- Built responsive marketing site and loan platform UI using React 18, improving user engagement by 20% and reducing bounce rates.
- Contributed to fintech project in 5-person Agile team, delivering ShadCN table components that improved data visualization by 35%.
- Implemented Zustand/TanStack Query architecture with Zod validation, reducing load times by 45% and ensuring 99% data integrity.
- Optimized mobile UX using responsive design principles, increasing mobile conversion rates by 18% month-over-month.

InternPe

Web developer

Remote

Aug 2023

- Built 3 responsive web apps with HTML5/CSS3/JavaScript, achieving 95+ PageSpeed scores across desktop and mobile devices.
- Implemented core e-commerce features improving user navigation by 30% through intuitive filtering and mobile-friendly layouts.
- Collaborated in Agile sprints with senior developers, implementing performance optimizations that reduced load times by 25%.

Projects

WeChat (Team Collaboration with AI Assistant)

[Github Hosted-Link](#)

React.js, Socket.io, Express.js, MongoDB, Gemini AI API, JWT

Feb 2025 - Apr 2025

- Engineered a real-time collaboration platform with Socket.io that reduced team response times by 40% across multiple project workspaces.
- Integrated Gemini AI model using the @ai keyword trigger, improving team productivity by 25% through AI-assisted problem-solving.
- Implemented secure JWT authentication and optimized UI performance, achieving 90+ Lighthouse score with WCAG accessibility standards.

Foodiii (Cloud Kitchen Platform)

[Github Hosted-Link](#)

React.js, Express.js, MongoDB, REST API, JWT, Bcrypt

Jun 2023 - Oct 2023

- Developed a full-stack cloud kitchen platform that processed 200+ daily orders with 99.9% uptime and <1.5s average page load.
- Implemented RESTful API endpoints for order workflow and payment gateway UI, reducing checkout abandonment by 15%.
- Utilized JWT and Bcrypt for data security, ensuring PCI compliance and zero security breaches during operation.

Zobs (Job Portal)

[Github Hosted-Link](#)

React.js, Express.js, MongoDB, JWT, REST API, Multer, Cloudinary

Dec 2023 - Feb 2024

- Built a MERN stack job portal supporting 500+ concurrent users with responsive design across desktop, tablet, and mobile devices.
- Implemented Multer/Cloudinary integration for resume handling, optimizing storage and reducing upload times by 30%.
- Designed RESTful APIs with efficient MongoDB queries, cutting database response times by 40% and improving search results.

Education

Bharat Institute of Technology.

Bachelor of Technology in CSE

Meerut, UP

July 2020 - July 2024
